

**(/learn) Gotta go fast!**

~~4888~~  
92f8.

Here's an example of a page's layout:

# Basic HTML and HTML5

100% complete

<meta />

**<body>**

 ~~$\langle dv \rangle$~~ 

Download my solution

```
</html>
(blob:https://www.freecodecamp.org/ffccdc34-4de0-4a4450b767e7)
```

Edit the markup so there's a `head` and a `body`. The `head` element should only include the `h1` and the `body` element should only include the `h1` and `p`.

## Run the Tests

Reset All Code

There should be only one head element on the page.
